

HIKARI H9199N-7C-5 / AK / PL single needle electronic machine

Product type: [1 needle Hikari machine](#)

Brand: [Hikari sewing machine](#)

Feature

1. **HIKARI 1-needle machine** with long body is the perfect choice for sewing large format or patterned sewing.
2. One of the world's top-end sewing machine products, the world's fastest speed at 4,000 rpm is 40% higher than that of other models.
3. Simple design, 570mmx140mm sewing size to meet the needs of large format sewing as well as different types of materials.
4. The automatic thread clamp set, no need to pull the lower thread when sewing helps limit bird's nest, increasing seam quality.
5. New sample thread cutters ensure speed and durability.
6. The engine oil level indicator on the body makes it easy to monitor and pump when needed.
7. The LED light mounted around the cylinder and the propeller helps to ensure a stable operating speed, reasonable light reflection and a wider bright area.
8. Integrating additional force kit, supporting fabric pull more easily.

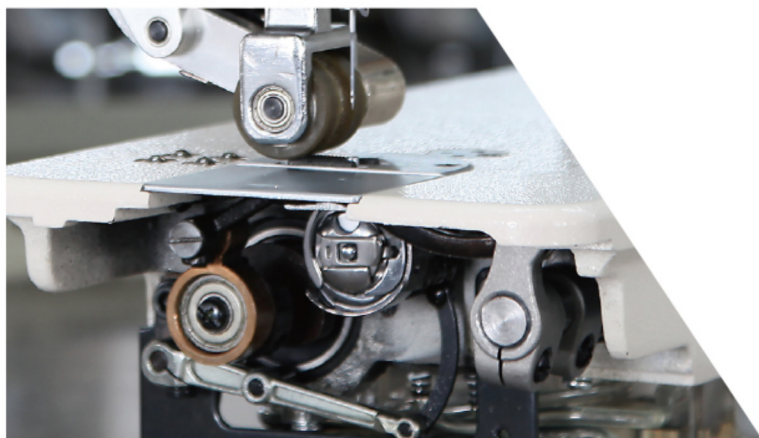

Traction assist device

The independent synchronization feature of the power booster helps better pull the fabric

The efficiency is improved

Speed up to 40% compared to similar machines

Ring cutter

With a circular cutter, the fabric is cut faster and more efficiently
